Cloud
Computing

PGE (M.Eng.) core courses

4GCPC (28H)

Google Cloud: Professional Cloud Security Engineer

4AZUR (21H)

AZ-900: Microsoft Azure Fundamentals

4KUBE (21H)

Introduction to Containers Orchestration
Installing Kubernetes
Running Applications on Kubernetes
Networking on Kubernetes
Storage on Kubernetes
Running Stateful Applications on Kubernetes
Introduction to Helm
Monitoring, Logging and Troubleshooting

M.Eng. specialization courses

4VIRT (28H)

TBD VMware -> Proxmox

Introduction to Virtualization and vSphere

Installing vSphere Components

vSphere Features, vSphere Client and P2V

vSphere Network and Storage Configuration

Virtual Machines, Clones and Templates

Security, Resource Management and Monitoring

vSphere Clusters, High Availability and Backups

4HELP (21H)

IT Management
Business Process Modeling
Project Management
Finance and Accounting
IT Performance
GLPI

4OENT (28H)

MS-900: Microsoft 365 Fundamentals
SC-900: Microsoft Security, Compliance, and
Identity Fundamentals

4ARCH (42H)

AWS Certified Solutions Architect

4LPIC (21H)

OpenLDAP
Network Time Protocol
OpenVPN
Authentication
Storage and High Availability
Security and QoS

4MCSA (21H)

PowerShell Reminders
Infrastructure Roles
Hyper-V and Advanced Networking
Monitoring and Troubleshooting
Active Directory Certificate Services

5MONI (21H)

Zabbix Certified Specialist (ZCS, level 2)
program

5CCNA (42H)

CCNA: Enterprise Networking, Security, and Automation

5AZUR (21H)

AZ-104: Microsoft Azure Administrator

5BACK (21H)

Backup Introduction
Veeam Availability Suite and Veeam Backup & Replication
Veeam Data Restoration, Advanced Configurations and Cloud Solutions
Business Continuity Management
Risk Assessment, Responses and Countermeasures
Incident Response Plan and Standby Site
Exercising, Testing, Maintaining and Improving

5VOIP (21H)

VoIP Introduction
VoIP Ecosystem and Strategy
Asterisk Installation and First Configurations
Asterisk Advanced Configurations
VoIP Security

IT Manager
